HONGKONG, WEDNESDAY, JULY 6, 1881.

THE vivid and humorous sketches given to the world by Mrs Oliphant of the Church clergyman and the pastor of Selom Chapel are too well known to intelligent readers to permit of any severe dogmatic utterances on the connection between the Church and the State. Whatever our opinion may be on the principle involved by such a connection, no one who is not unduly influenced by sectarian prejudice can deny that the Church of England and the Church of Scotland have exercised a great power for good in the United Kingdom. It need not be contended that either of these bodies are embodiments of unmixed good, for the incentives to selfishness and indifference to others furnished in England by endowments and fat livings, whereby the lot of the poor and hardworking clergyman is brought into very strong contrast with that of the aristocracy of the Church, are not of a peculiarly spiritualising tendency. There can be no question, at the same time, that the established Churches of England and of Scotland have done great things for the country, especially in districts where the population was too small to maintain religious worship for themselves. It will be a sad day for England if, when the Established Church is removed, no adequate substitute is found to take its place. Notwithstanding this feeling, that we cherish no desire to see the State suddenly severed from the Church, there is no use in blinking the fact that the ultimate disassociation of the one from the other is a sign of the times. This tendency is nowhere more observable than in the English Colonies, where, of course, the population is of a more mixed character than in the old Country. Disestablishment has virtually been accomplished in some of our Colonies; while in others (Ceylon, for instance) the fiat has all but gone forth to complete this change. It is almost a certainty that the Colony of Hongkong will ere long follow in the wake of other dependencies. It is understood that several months ago the question was reported upon here with a view to that probable contingency, and it is generally believed that the present incumbent of the Colonial Chaplaincy at Hongkong is the last holder of that appointment under Governmental auspices. The efforts recently made, therefore, by our Roman Catholic contemporary to draw a striking contrast between the amounts paid to the Protestant Church and those doled out to the Roman Catholic ecclesiastical institutions are not even so likely to meet with favour, in view of future contingencies, as they might otherwise have done. It does not by any means follow that in an English Colony, where the Protestant denomination includes almost the whole of the British community, any special support should be given by the Government to the Roman Catholic body. If such a view were for a moment to be adopted, Union Church and every Chinese congregation in the Colony might set up a similar claim. But if, as we maintain, the intention of the Imperial Government is to gradually do away with State aid in matters of religion, beginning with the Colonies, this fact imports a more definite element into the consideration of such questions than has been present hitherto.

We think that no reason whatever exists why the Protestant communities of Hongkong should not maintain their own religious services at their own expense. The only duties concerning which a claim could fairly be raised for remuneration from the Government, are those which belong exclusively to public institutions. Services rendered to the Gaol Department, at the Civil Hospital, or in connection with the burial of those laid to rest in a paupers grave, would naturally become nobody's business the moment the appointment of Colonial Chaplain should lapse. But the performance of such duties do not appear to us to present any great difficulty in the way of the disestablishment of the Church in this Colony. A chaplain to the Gaol could easily be engaged whose functions could be arranged to extend to [illegible] the duties of an ecclesiastical nature connected with the Government Departments. In pointing to such possibilities and discussing the requirements which any such contingency may reveal, as we have done in the above remarks, it may be as well to state that it is in no spirit of antagonism to the Church of England that we do so. It has often been a source of some surprise and no little amusement to note the fears frequently shown by Churchmen at a possible dis-

establishment of their body,—as if the very existence of the Church depended upon the support of the State. So long as the Church of England remains true to her great principles, as laid down in the New Testament, and grandly popularised in her incomparable Liturgy, there need be little anxiety as to the cohesive power of the old Church. We have no desire to see any change in the English Cathedral here save that of improved and more vigorous health, though the inevitable tendency to minimize the connection between the Government and the Church here and elsewhere meets with our approval.

REUTER'S TELEGRAMS.

[SUPPLIED TO THE "CHINA MAIL."]

(Per E. E. A. & C. Telegraph Co.'s Line.)

THE ATTEMPTED ASSASSINATION OF PRESIDENT GARFIELD.

LONDON, July 4.

The condition of the President of the United States remains unchanged. The bullet has pierced the liver, and has not been withdrawn.

LOCAL AND GENERAL.

The next AMERICAN MAIL may be expected to arrive here, by the O. & O. steamer *Belgic*, on the 12th inst. Her San Francisco dates are to the 11th June.

THE Russian man-of-war *Europa* came out from the Sam-shui-poo Dock this forenoon.

THE delivery of the English Mail was begun at 2.25 this afternoon.

WE are informed by the Agents (Messrs Jardine, Matheson & Co.) that the S.S. *Glenroy* left Singapore for this port last night, the 5th inst.

WE hear definitely by this mail of the resignation of the post of Registrar of the Supreme Court here by Mr H. F. Gibbons. It was believed that Mr Gibbons would be compensated by the Colonial Office in the shape of an appointment to a post elsewhere than Hongkong.

WE would direct attention to an advertisement in another column to the effect that the Mattie Taylor Troupe will give a grand performance on Saturday evening next, which is the eve of the clever little artiste's birthday. We trust there will be a good house to reward and encourage the enterprising little lady.

THE prospectus of the New Chinese 8 per cent Loan of 1881 appears in another column, and tenders are invited by the Hongkong & Shanghai Bank up to the 25th inst. The amount is Tls. 4,384,000, and par is fixed as the minimum rate at which tenders will be received. A reference to the advertisement will show that the particulars given are full and explicit.

THE mail steamer *Verona*, which arrived to-day is one of the latest additions to the P. & O. fleet. A full description of the vessel, with details of measurement, &c., was given some time ago in our columns. She has made the run from Singapore in remarkably good time, and this is the third or fourth occasion within a few months in which the mails have been landed here within 32 days from London.

IN our remarks of last night (5th) regarding the assassination of President Garfield, we omitted to note that, in the event of the shot proving fatal, the position of President devolves upon the Vice-President (Mr Arthur) in the same way as it did when Abraham Lincoln died in 1865 (April 15),—the President of the Senate assuming the position of Vice-President vacated by Mr Arthur. At the same time, hopes are still entertained that the shot may not prove fatal. This depends in a great measure, so say our medical friends, upon whether the liver has been so injured as to cause internal hæmorrhage. It is sincerely to be wished that President Garfield's constitution may prove strong enough to rally under medical treatment, and that, now two or three days have elapsed without news of the worst, hopes may yet be cherished that such may prove to be the case.

THE Indian telegrams which are contained in the *Straits Times* mail extra, to hand to-day, have appeared in our columns, from special sources, as far back as the 29th of last month and the 2nd instant. The following only is new :—

Simla, June 20.—It is reported from Kandahar that on the 11th a force from Girishk, consisting of two regiments cavalry, one infantry and two guns, met with and were attacked by levies under Mahomed Hassan Khan and Abdulla Khan at Karegi Sifed.

The latter, after three hours' fighting, were defeated with considerable loss. Abdulla Khan, it is said, was killed and the body found. Many other officers were killed, and a large number of prisoners taken.

Law Notice.

IN THE SUPREME COURT OF HONGKONG.

(Before the Hon. Francis Snowden, Acting Chief Justice.)

IN BANKRUPTCY.—Thursday, 7th July, 11 a.m.—In the matter of Dhraimdass Dajoomull, bankrupt. The bankrupt to come up for his final order of discharge.

Police Intelligence.

(Before H. E. Wodehouse, Esq., Police Magistrate.)

Wednesday, July 6.

MORE FOURTH OF JULY.

James Murphy was charged with being drunk and incapable.

Defendant admitted the charge, but said it was the 4th of July which did it. From that time he had not been sober.

$2 or seven days in gaol.

MENDICANCY.

A Chinese woman found begging was ordered to be sent back to her native country. She admitted having been sent there on the 23rd June.

THEFT.

Fong Yan Kwai was charged with stealing a pair of shoes. Evidence was led, the charge proved, and prisoner, having admitted being in gaol before, was sentenced to six months' imprisonment with hard labour.

ASSAULTING THE POLICE.

Two Chinamen were charged with assaulting a Police Constable in the execution of his duty.

The constable assaulted (a Chinaman) gave evidence as to being struck by stones thrown by the prisoners, and an English P. S. and a Sikh policeman corroborated the first witness's statement.

The two defendants were fined $25 each, or six months' imprisonment with hard labour.

Upon another case being heard, from which it appeared that the offence was not so serious as at first supposed, the Magistrate recalled the prisoners from the gaol, and amended the sentence as follows :—Fined $5 or seven days imprisonment with hard labour, and to enter into a personal recognisance to be of good behaviour for four weeks.

ASSAULTS.

Four Chinamen were charged with assaulting a Chinese woman, and two of them also with assaulting a Police Constable.

The first and second defendants were discharged with a caution and the third and fourth fined $2 or seven days with hard labour, and to find a personal recognisance of $5 to keep the peace for three weeks.

Lin Apo was charged with assaulting Yun Aja, was convicted on evidence, and fined $1 or three days in gaol with hard labour, and to enter into a recognisance of $5 to keep the peace for a month.

Two Chinamen were charged with assaulting a third. Evidence was led, and both defendants were fined $5 or one month's imprisonment with hard labour. Both had been in gaol before.

DRUNKEN ROGUE AND VAGABOND.

John Butler, was charged with being drunk, and also with being a rogue and vagabond.

P.C. 6 said when he arrested the defendant he was incapable of taking care of himself. Defendant had been in the Colony for the last eight months. He had been charged for deserting his ship and put on board, but just before the vessel left he had again managed to get on shore. Since then he had been in gaol three times.

Three months' imprisonment with hard labour.

ALLEGED ASSAULT.

A Chinaman charged with assaulting a Police Constable, was dismissed with a caution.

(Before the Hon. M. S. Tonnochy, Acting Police Magistrate.)

ASSAULT.

Lam Amut remanded from the 29th of June, was charged with assault. Further evidence was led, and the defendant, having admitted being gaol before, was fined $5 or one month's imprisonment with hard labour

CORRESPONDENCE.

THE BRITISH SQUADRON IN CHINA.

Editor of the *London and China Express*.

London, May 25.

SIR,—It was somewhat exhilarating to read the account you gave of the naval forces in the Far East in your last issue, and to hear that so much activity prevailed in all directions. As the naval force in China is so much depended on, for civil ends as well as warlike ones, it is absolutely necessary that everything should be always maintained in a high state of efficiency, and that no Sleepy Hollows should be found anywhere. Of course all this activity must spring from the fountain head, and Admiral Willes deserves to be complimented on the manner in which he is working the China Squadron. Some strange stories are current here, with what amount of truth I cannot say, of the way in which both old and young officers have been plucked. This may be decidedly unpleasant, but we hope it may attain, and probably will, the end for which it was done.—I am, &c.,

NAUTICUS.

Canton.

Bleak-house, 3rd July, 10 p.m.

Reverting to my note that was closed at about 4 p.m. yesterday, when my barometer stood at 29° 54' and thermometer at 91½, I have to report the intensifying of the strain thus indexed and then described, until 29° 48' and 92°, respectively, were reached; when the rebound came from the Lo-fau mountains,—(the highest range in this part of China, lying East of Whampoa),—in a furious tempest of thunder, lightning and rain, whose terrors were compensated by purification of the air and such a flooding of the streets as has not been seen for many weeks, if indeed so effectual a cleansing of both Canton and Honam has occurred this year; the rain lasting several hours. The thermometer did not fall below 83°, however, last night, and rose to 86° this p.m. and now stands at 85°. The relief is, as yet, therefore, but temporary and local; but, as the barometer has risen gradually to 29° 72', I am hopeful that a squally monsoon will prove to be the more permanent relaxation of the strain, that has borne rather acutely upon one's nerves latterly.

I must plead that, for excuse of my miswriting Lien-fau for Lo-fau yesterday and for indicating the position of the Comet as bearing North by East, instead of North half West. It is more distinctly seen this evening; and I must correct your report so far as to point out that the tail does not point directly at the North-star; but a little to the left or westward of it.

There was one tremendous thunderbolt during the tempest, that appeared to reach the earth near my residence; and I have so many times felt it to be Bleak-house *par excellence* that I shall generally remember, perhaps, to date henceforth as from "Bleak-house."

I hear this evening that the tempest was so severe below Whampoa that the *Ningpo* anchored there. I learn already of the upsetting of one passage boat and loss of two lives.

Great activity is being exhibited at present time by the military authorities at this port and in the neighbourhood. Recruiting is going on apace, especially among the militia. The garrisons of the various forts are kept in constant practice with shot and shell at floating targets, and the infantry are not allowed to be idle. There are various rumours as to the purport of this activity, the most popular assigning bellicose intentions on the part of the Imperial Government as to the directing motive.

H. I. G. M.'s S. *Ittis*, Commander Klause, arrived to-day (1st) from Swatow.

During the last month (June) 60 steamers, 10 sailing vessels and 6 men-of-war have arrived at this port.

The German barque *Anna Dorothea*, which arrived in port to-day (1st) from Newchwang reports that she spoke a British barque from Newchwang to Hongkong on 26th June, 23 days at sea.

We learn that a Chapel connected with the London Mission at Changchow was on Friday evening last the scene of a serious disturbance. It would appear that a service was being held, when a native graduate of very indifferent reputation forced his way into the building, and created unseemly interruptions by his violent conduct. A crowd collected, and the Christians not knowing what might happen closed and barred the doors, the individual above referred to being locked inside. He called on his associates in the crowd by whom the doors were broken in, the place sacked and finally set fire to. Some neighbouring shops and houses, also the property of Christians, were completely gutted by the rioters. Meantime the Magistrate arrived on the scene and with commendable promptitude arrested the ring-leaders and carried off the Christians, some of whom were somewhat seriously hurt, to his Yamên for protection. These are all the particulars we have so far been able to gather, but we would remark that the various reports agree in praising the conduct of the mandarins concerned.

The beautiful comet now visible in the Northern hemisphere has a very bright nucleus, and its distance from the North star was measured last night in Amoy harbour per sextant on board a steamer (at 8.45 p.m.) 24° 54'; tail pointing in a very nearly due North direction. It is to be seen from about 8.30 p.m. till daylight in the Northern sky. Great excitement has been created by its appearance among the Chinese, who regard it as predicting war with Japan or at the least revolutionary troubles.

YOKOHAMA.

(Gazette.)

We observe with much pleasure that the suggestions put forward by us some time ago for a new theatre are likely to be carried into execution. Several meetings of the Choral Society have been held; and we now understand a special meeting of members is called for the 27th instant to consider plans and propositions for the realisation of the project. This is a matter upon which the members of the Choral Society are to be congratulated. There should be no difficulty whatever in obtaining the funds required to erect a building which shall be creditable to the settlement, and no obstacle in the way need be feared. The next point, and one of great importance, is the site. A good position for a theatre is indispensable: especially if the funds are to be raised on debenture bonds, which of course will probably be pursued. The security is infinitely greater if the site is eligible; and shareholders will find their bonds readily saleable if the building occupies a prominent place, whereas, if it is hidden in some out of the way corner the scrip will, after the first few months, become almost unmarketable. Too much importance cannot be attached to appearance in matters of this sort.

His Majesty the Emperor will leave Tokio on a visit to Sanridzuka, Shimosa, on the 28th instant, and will stay there two days.

As at present arranged, the imperial yacht *Zingei-Kan* will proceed to Funakawn in Akita ken to be in readiness to receive his Majesty and convey him to Hokkaido. The *Kongo-Kan* will also be in attendance.

The Emperor hearing of the indisposition of Admiral Lessoffsky was graciously pleased to send special messengers to ascertain his condition.

One of the recommendations for the formation of a separate department of agriculture and commerce was, that economy of expenditure would result. This expectation is not likely to be realised, for the estimates for the new department for the next fiscal year amount to 1,400,000 yen!

That enthusiastic journal the *Hochi Shimbun* announces the proposed formation of a company for the manufacture of copper. So far, we judge that the undertaking is successful, for we are told that there are 5000 shares of 100 yen each which are now, in consequence of the demand, at nearly 100 per cent. premium. Machinery has been imported from the United States, and the buildings required are nearly completed. In addition to plates, wire, nails, &c., the company intend to make yellow metal and sheet copper for sheathing the bottom of vessels; work that hitherto, for want of machinery could not be performed in this country which produces so much copper. An export of this commodity is expected; and if the work is well done and prices reasonable, there is no doubt that a copper producing country should find such an industry highly remunerative. Everything seems in favour of the new company with one exception—the chief movers are Mr Godai, the eminent discoverer of the art of making indigo out of the leaves of the *satoimo*; and Messrs Sumitomo and Nakano.

The *Nichi Nichi Shimbun* says that a new life insurance company is projected; and will be brought out under the auspices of the Mitsu Bishi Company.

Mr Yamahara Tomihisa, a shizoku of Osaka fu, is in luck. He has discovered that a disused mine in Tojima is richly auriferous, a trial made by permission showing seven to thirty parts of pure gold in one hundred thousand parts of ore. As the lode extends over several hundred square cho, the deposit is considerable; and machinery having been ordered, extensive operations will soon commence.

(Times.)

We regret to have to record the death, yesterday evening (June 28th), at the Hotel de l'Europe, of Mr Alexander Wilson, of Wilson's Great World Circus, from dysentery contracted at Bangkok. Mr Wilson married four months ago, at Calcutta, Miss Lee, of Chiarini's Royal Italian Circus.

We hear with pleasure that Mr Tan Keng Cheow's Steam Laundry is progressing favorably, but though we would do everything to encourage him, it is a pity there should be so many complaints about irregularity in delivery of the clothes, ten or twelve days being not an unusual detention. This is one of the great grievances against our friend the Dhobi, who certainly at times is prevented from regularity in delivering clothes by rain. We understand that the Steam Laundry is independent of the weather, having a steam drying apparatus. Perhaps by a little more care and attention Mr Keng Cheow will be able to rectify this falut, and remove all grounds of complaint.

NEWS BY THE ENGLISH MAIL.

LONDON AND CONTINENTAL TELEGRAMS.

London, June 17.—The second clause of the Land Bill has unanimously passed through committee.

When Sir Evelyn Wood's force is broken up, the 17th Hussars will return to England. The 14th and 15th Hussars and 6th Dragoon Guards will proceed to India, the latter relieving the 10th Hussars.

June 19.—Disturbances in Ireland have almost entirely subsided, apparently in consequence of Government continuing to prohibit popular assemblages at evictions.

June 20.—The Roman Catholic Archbishop of Dublin has issued a pastoral letter in which he strongly urges moderation.

The Premier, in reply to a question, confirmed the statement in the *Daily News*, that Government had called the attention of the United States Government to the operations of the Fenian organization.

Marseilles, June 18.—Some members of the Italian Club here having hissed the French troops who were passing through from Tunis, an angry crowd demanded the removal of the Italian escutcheon from the Club House. The prefect protested, but the Deputy Mayor had it pulled down.

The Prefect has closed the Italian Club here, owing to hostile demonstrations made by the members yesterday.

June 19.—Desperate fighting took place here this evening between the French and Italians, during which several on both sides were killed and wounded. The cause of this outbreak was maltreatment of some French soldiers by the Italians.

Algiers, June 18.—The French troops have defeated Algerian insurgents in the Laghout district in three engagements, killing 130, and capturing many prisoners. The French loss, killed and wounded, is thirty.

St. Petersburg, June 18.—Two powerful dynamite mines have been discovered under the bridge over the Catherine Canal.

Latest Mail Advices :—Yokohama (*via* San Francisco) April 20, Shanghai 20, Foochow 19, Hongkong 25. The French mail, with the advices dated as above from China and the Straits Settlements, was delivered, *via* Naples, on the 27th ult., three days in advance of its due date. The Japan advices were received, *via* San Francisco, on the 28th ult. The next inward mail left Alexandria on the 1st inst., and will reach London on the 7th inst., its due date.

The *Glenroy*, which sailed on the 1st inst., took out to Shanghai one of Gwynne's centrifugal pumping engines, and a double cylinder engine for the Tong Colliery at Kaiping, being about 10 tons. The *Glenearn*, the previous Glen line steamer, took out some steam engines for a Guibal fan, which had been previously despatched, together with a differential pumping engine, plunger-pumps, &c., and a case of meteorological instruments, being altogether about 260 tons. Amongst recent machinery which has also been forwarded to the mine from this country are a Guibal fan, pipes for plunger, pumps, telegraph wire and insulators, 5,000 picks and shovels, 900 yards of iron winding and guide ropes, safety lamps, five field boilers, and engineers' stores and brass tubes. The *Glenaffer*, which is announced to sail about the 18th inst., will also take about 100 tons of steel rails.

In the chairman's speech at the meeting of the P. & O. Company our readers will observe that the company intend to run through steamers for the China trade, which announcement we doubt not will cause a large amount of satisfaction. The company have entered into a contract with Messrs Caird & Co., of Greenock, for the construction of two steamers, to be built of steel, of 4,500 tons register each, and 800-horse power nominal. Including these and the *Rome*, which was launched on the 14th ult., the company have now nine steamers building, aggregating 40,000 tons.

Her Majesty has been pleased to confer the distinction of Commander of the Most Distinguished Order of St. Michael and St. George on Halliday Macartney, Esq., M.D., English Secretary to the Chinese Legation.

A correspondent writes, under date of 24th ult. :—I have read an article in the last *London and China Express*, which leads one to suppose that the Bishop's residence is turned into a military mess house. I think this is a mistake; there are two or three houses called College-gardens, which belong to St. Paul's College, which is the Bishop's residence, and the rents are the endowment of the college. One of these became vacant a short time since, and the artillery mess, which had been much higher up the hill, moved down to College-gardens, on the level of the Government House. The Bishop had let his *own* residence, during his absence, to Mr Jones, of the Commissariat Department. There is a great scarcity of dwelling houses at Hongkong. [The name should be Mr G. E. March, of the Ordnance Department; but why so much fuss should be made about this matter is very difficult to see.—ED. *C.M.*]

A meeting of the Abolitionist Society has been held at Madrid, at which it was resolved to petition the Government for the immediate abolition of slavery in the Spanish Colonies.

In the House of Lords, June 3, Lord Kimberley stated, in reply to Lord Lamington, that it was a misapprehension to suppose that the town of Lorenzo Marquez was claimed by England and awarded to Portugal by the arbitration of Marshal MacMahon, the arbitration having, in fact, nothing to do with that part of Delagoa Bay. The Treaty was ratified some time ago by the late Government, but up to this moment the present Government had not been able to obtain its ratification by Portugal. The Portuguese House of Representatives had, however, assented to it, but it had not yet been considered by the House of Peers. The Treaty had been violently opposed in Portugal, owing to its being misunderstood; but we should have no right under it to embark or disembark troops on Portuguese territory, nor to send them through Portuguese territory to the Transvaal.

Lord Northbrook explained, at the instance of Lord Chelmsford, that the delay in the distribution of the medals to the Naval Brigade which served in the Cape Colony and Zulu wars of 1878-79 had arisen from the difficulty experienced in making up the rolls.

In the House of Lords on the 30th, Lord Dalhousie moved for a Select Committee to inquire into the state of the law relative to the protection of young girls from artifices to induce them to lead a corrupt life, and into the means of amending the same. The noble earl stated painful facts, which had come within the cognisance of the Foreign Office, to show that a detestable traffic had for years been carried on by Belgian agents in decoying young English girls to Belgium, and he pointed out that neither the common nor the statute law enabled the English authorities to prevent those agents from plying their nefarious trade in this country. Lord Shaftesbury expressed his opinion that the records of mankind contained nothing worse than the details of the abominable traffic which Lord Dalhousie had brought under the notice of the House. The Bishop of Peterborough, in pathetic terms, said it would be impossible in an assembly like their lordships' House to describe adequately the horrors of the traffic. He highly commended the action of the Government in proposing the Committee. Lord Granville mentioned that it was intended that the Committee should go very fully into the question of the state of our law with reference to this question.

The motion was then agreed to.

At a gathering of Mark Master Masons, held at the Criterion, Piccadilly, the Earl of Lathom, who presided, announced that Prince Leopold, Duke of Albany, had consented to receive the appointment of Past Grand Master of the Mark degree. Lord Henniker was afterwards installed as Grand Master.

The *Tyne* troopship, commander J. E. Stokes, which left Hongkong on the 9th April for Portsmouth, with the relieved crews of the *Fly*, *Foxhound*, *Magpie*, and *Vigilant*, sailed from Gibraltar on the 1st inst., in continuation of her homeward voyage.

The *Swinger*, 4, composite gun-boat, Lieut.-Commander O. P. Tudor, recently arrived from the China station, after a service of upwards of eight years from England, was paid off on the 28th ult. The crew have been granted sixty-one days' leave.

A few days ago the commander of the *Mutine*, a vessel built on the same lines as the *Doterel*, and now fitting out at Devonport, was inspecting his ship, when he found a very serious defect in the shell-room. The stowage of shells had commenced, when it was discovered that, owing to the imperfect fitting of a piece of iron in the watertight bulkhead, there was a hole four or five inches long, by more than half an inch broad, leading into the shellroom. This discovery in a ship so like the *Doterel* as the *Mutine* is, raises the disagreeable doubt as to whether a solution of the *Doterel* disaster might not be found in a similar direction. If there were such a fault as this in the *Doterel*, it is easy to understand how combustible material from the first explosion may have found its way into one of the magazines with the awful consequences that occurred at Sandy Point.

July 6.

For a long time past the market for Bengal Opium has not possessed so much interest as during the past fortnight. Speculation being its very mainstay, that which has been commenced in Shanghai on the hypothesis of a large increase in the duty, has kept the market here in a state of convulsion, whilst hourly telegrams from the ports have not failed to play their part in "firing up" the rates. Old Patna has been almost taken off the importers' hands by the acute Celestials; and New has been dealt in to a fair extent. Of Benares also a fair quantity has been taken for local requirements. After a short "calm" upon the receipt of the month's supply, the rates once more took a spurt, standing to-day at $645 to 647½ for New Patna, and $627½ for Benares. For Old Patna the rate mentioned is $640.

The receipts for the month, so far, aggregate 3,838 chests, against 3,671 chests to the corresponding period last year. During the interval some 1,000 chests have been taken by the local consumers, against 550 chests at the corresponding interval last year. This, with the exportations, leaves the available supply computed at 3,600 chests (including the Old Patna in second hands) against that of 3,781 chests same time last year. Of this last quantity 850 chests were Benares, of which kind the present stock comprises 1,500 chests, with 400 chests Old Patna in all.

MR. R. STEIL'S freight circular for the Mail of Thursday, 7th July, says :—

The past fortnight has been an unusually dull one in the Freight market, the business transacted has been extremely small, and the demand both homewards and coastwise is very slack.

Homewards no settlements are reported; the demand from the Philippines to the United States or to the United Kingdom has completely fallen off in consequence of tonnage chartered at home or elsewhere. Freights from this port to London or to the Continent have also declined, and the inquiry has generally been very small.

Coastwise a slight demand for tonnage from Saigon has continued, and steamers of moderate size may obtain 19 cents per picul. Freights for sailing vessels for the Northern ports have remained dull, but rates have been maintained at last quotations. From Newchwang to Hongkong 28 cents per picul can be quoted.

The American ship "Wilna," 1,483 tons; the British bark "Star of China," 794 tons; and the German bark "Melusine," 937 tons, proceed to the Philippines under charters effected at home.

The disengaged tonnage in port amounts to 11 vessels, registering 5,836 tons, steamers not included.

The following are the settlements :—

British barque Velocity, 500, Newchwang to Hongkong, 28 cents per picul.

German barque Hilda Maria, 276, Newchwang to Hongkong, 27 cents per picul.

German barque Anna, 350, Whampoa to Tientsin, $1,900 in full, 22 lay days.

Siamese barque Thoon Kramon, 474, to Bangkok and back, $3,100 in full, 33 lay days.

Danish steamer Norden, 778, Newchwang to Hongkong, 30 cents per picul, 13 lay days.

British steamer Serapis, 1271, to Singapore, Penang, and Batavia, $4,250 cents per picul, 6 lay days.

German steamer Octava, 936, Saigon to Hongkong, 20 cents per picul.

British steamer Thornhill, 965, Saigon to Hongkong, 20 cents per picul.

British steamer Adria, 781, to Saigon and back, 27½ cents per picul.

German steamer Vorwaarts, 611, Monthly charter, 12 months, $3,500 per month.

MESSRS DEACON & CO.'s Canton Market Report, dated 5th July, says :—

Our last report was dated 21st ultimo.

Coupons.—Small settlements only are reported, and the market is without change.

Business at Macao continues on a moderate scale.

Scented Teas.—Common and fine Capers have been in enquiry, and prices have been fully maintained for these as well as for fine teas, of which there are few parcels to be met with. Medium grades have been in little or no demand; prices for these are somewhat easier, but at present there is no quotable change.

The market for Pekoes has been quieter; medium "long leaf" teas have been out of favor, but finer kinds have been more sought after, and purchases have been made at Tls. 22 *a* 28 per picul; "new make" and "short leaf" sorts have been dealt in from Tls. 15½ *a* 18 per picul.

The following is a summary of the fortnight's business :—

Congou, 200 boxes at Tls. 18 *a* 20 per picul; Scented Caper, 16,000 boxes at Tls. 12½ *a* 26 per picul; Scented Orange Pekoe, 8,000 boxes at Tls. 15½ *a* 28 per picul.

Export of the various descriptions of Teas shipped from Canton Wafers (Hongkong, Canton, and Macao) to Great Britain to date :—June 18, S. S. *Glenfallach*, Congou 79,588 lbs., S. Caper 76,020 lbs., S. O. Pekoe 69,150 lbs., total 224,758 lbs.; 23, S. S. *Ravenna*, Congou 71,978 lbs., S. Caper 149,583 lbs., S. O. Pekoe 55,311 lbs., total 276,872 lbs.; 25, S. S. *Glenfinlas*, Congou 99,157 lbs., S. Caper 35,175 lbs., S. O. Pekoe 63,046 lbs.; total 197,378 lbs.; 27, S. S. *Nestor*, Congou 31,419 lbs., S. Caper 89,880 lbs., S. O. Pekoe 70,283 lbs., total 191,582 lbs.; 30, S. S. *Sindh*, S. Caper 73,700 lbs., S. O. Pekoe 35,553 lbs., total 109,253 lbs.—making, with previous shipments, a total for the season of 4,568,854 lbs., against 5,604,149 lbs., for season 1880-81.

SILK.—It is difficult to arrive at exact settlements of New Season's silk, but we estimate them at 1,100 to 1,200 bales of Tsatlee reel. Early purchases were made on the basis of $395 per picul for No. 4, but prices have since advanced, and $410 per picul has lately been paid for that grade. Transactions include all classes of thread from "Curio" to No. 5. The stock in Canton is probably 1,500 bales, and say 1,000 bales (of second crop) in the country. The third yield is expected to commence arriving in about ten days hence, and there is said to be a large crop.

We hear of little, if any Silk having been settled on "Condition terms," and the natives as usual have managed to get their own way in this respect.

Of *Long-reels*, 50 piculs are reported settled, for shipment to Bombay.

Re-reels—Contracts amount to 800 boxes, including Best and Nos. 1, 2 and 3 Lucklow. Prices have lately advanced with those for Tsatlee.

Stock is computed at 1,200 to 1,500 bales Tsatlee, 50 bales Cumchuck and Lucklow, and about 200 bales of other kinds.

Waste.—Contracts since beginning of the season, are 1,000 bales. No. 1 is not in stock, and No. 2 Gum is quoted $115 per picul.

Export of Silk.—Export to date :—To London, 105; to Continent, 148 bales; to America, 20 boxes; to Bombay, 354 piculs; Total, 253 bales; 20 boxes; and 354 piculs. Of Waste, 647 bales; and Pierced Cocoons, nil. —for Europe.

Underneath are prices asked to-day.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of *Notes & Queries on China and Japan*, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, *or Notes and Queries on the Far East*, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at $6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly *in advance*.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelago and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The *China Review* for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising *Review*. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the *Review*. Address *China Review*, Hongkong.—*Northern Christian Advocate* (U.S.)

Trübner's Oriental Record contains the following notice of the *China Review*:—"This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of *Notes and Queries on China and Japan*, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the *Calcutta Review*. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the *Review* by papers highly creditable to their respective authors. In a paper on Dr. Legge's *She King*, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Besides notices of new books relating to China and the East, which will be a useful feature of the *Review*, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the *China Review* may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.—

This paper is now issued every day. The subscription is fixed at *Four Dollars* per annum delivered in Hongkong, or *Seven Dollars Fifty Cents* including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,—from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tone—is almost limitless. It on the one hand commands Chinese belief and interest while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to

Hongkong Rates of Postage.

(Revised December 1st, 1880.)

In the following Statements and Tables the Rates are given in *cents*, and are, for Letters, *per half ounce*, for Books and Patterns, *per two ounces*.

Newspapers over four ounces in weight are charged as double, treble, &c., as the case may be, but such papers or packets of papers may be sent at Book Rate. Two Newspapers must not be folded together as one, nor must *anything whatever* be inserted except bona fide Supplements. Printed matter may, however, be enclosed, if the whole be paid at Book Rate. Prices Current may be paid either as Newspapers or Books.

Commercial Papers signify such papers as, though Written by Hand, do not bear the character of an actual or personal correspondence, such as invoices, deeds, copied music &c. The charge on them is the same as for books, but, whatever the weight of a packet containing any partially written paper, it will not be charged less than 5 cents.

The sender of any Registered Article may accompany it with a Return Receipt on paying an extra fee of 5 cents.

The limit of weight for Books and Commercial Papers to Foreign Post Offices is 4 lbs. Patterns for such offices are limited to 8 ounces, and must not exceed these dimensions: 8 inches by 4 inches by 2 inches.

N.R. means No Registration.

Countries of the Postal Union.

The Union may be taken to comprise Europe, most foreign possessions in Asia, Japan, W. Africa, Egypt, Mauritius, all America, Mexico, Salvador, Brazil Peru, Chili, Venezuela, the Argentine Republic, Jamaica, Trinidad, Guiana, Honduras, Bermuda, Labuan, with all Danish, French, Netherlands, Portuguese and Spanish Colonies.

Local Delivery.

1. All correspondence posted before 5 p.m. on any week day for addresses in Victoria will be delivered the same day, and generally within two hours, unless the delivery should be retarded by the Contract Mails.

2. Invitations, &c., can generally be delivered within Victoria at the private houses of the addressees rather than at places of business, if a wish to that effect be expressed by the sender, otherwise all correspondence is invariably delivered at the nearest place of business.

3. Boxholders who desire to send Circulars, Dividend Warrants, Invitations, Cards, &c., *all of the same weight*, to addresses in Hongkong, Bangkok, or the Ports of China and Japan, may deliver them to the Post Office unstamped, the postage being then charged to the sender's account. Each batch must consist of at least ten.

4. Boxholders may also send Patterns to the same places in the same way. Envelopes containing Patterns may be wholly closed if the nature of the contents be first exhibited or stated to the Postmaster General, as he may consider necessary, and approved by him. Printed Circulars may be inserted in such Pattern Packets.

PARCELS.—The public is reminded that there is no such thing as Parcel Post to Europe, &c. Much trouble and disappointment are caused by persistent attempts to send small valuable trifles through the Post. Fans, Curios Articles of Dress, Fancy Work, and similar presents are continually being refused, the senders having often spent more in Postage than would have paid the freight by steamer. No refund can be made or such parcels of the value of Stamps obliterated before the nature of the contents was discovered.

Local Parcel Post.

1. Small Parcels may be sent by Post between any of the Post Offices in China or Japan, as well as to Macao, Fakhoi, Singapore, Penang, and Malacca. They must not exceed the following dimensions, 2 feet long, 1 foot broad, 1 foot deep, nor weigh more than 5lbs. The postage is 20 cents per lb., which includes Registration except to Japan, to which country parcels are forwarded at Book Rates Registry being optional. The parcels may be wholly closed if they bear this special endorsement, PARCEL, CONTAINING NO LETTER, but any parcel may be opened by direction of the Postmaster General.

2. The following cannot be transmitted: Parcels insufficiently packed or protected, or liable to be crushed (as bandboxes, &c.) Glass, Liquids, Explosive substances, Matches, Indigo, Dyestuffs, Ice, Meat, Fish, Game, Fruit, Vegetables, or whatever is dangerous to the Mails, or likely to become offensive or injurious in transit.

3. Parcels will as a general rule be forwarded by Private Ship, not by Contract Mail Packet. The Post Office reserves the right of selecting the opportunity for transmission, and of delaying delivery in case the number of parcels is such as to retard other correspondence. No responsibility is accepted with regard to any parcel, but the system of Registration will secure the senders against any but a very remote probability of loss.

4. The public are cautioned not to confound these facilities with a *Parcel Post to Europe*, &c., which does not exist.

It is necessary that the following rules be strictly observed.

1. No Letter or Packet, whether to be registered or unregistered, can be received for Postage if it contains gold or silver money, jewels, precious articles, or anything that, as a general rule, is liable to Customs duties.

2. This Regulation prohibits the sending of Patterns of dutiable articles, unless the quantity sent be so small as to make the sample of no value.

3. The limits of weight allowed are as follows,—

Books and Papers—to British Offices, 5 lbs.; to the Continent, &c., 4 lbs.

Patterns—to British Offices 5 lbs if without intrinsic value; to the Continent, &c., 8 oz.

Indemnity for the Loss of a Registered Letter

The Post Office is not legally responsible for the safe delivery of Registered correspondence, but it is prepared to make good the contents of such correspondence lost while passing through the Post, to the extent of $10, in certain cases, provided:—

1. That the sender duly observed all the conditions of Registration require.

2. That the letter was securely enclosed in a reasonably strong envelope.

3. That application was made to the Postmaster General of Hongkong immediately the loss was discovered, the envelope being invariably forwarded with such application unless it also is lost.

4. That the Postmaster General is satisfied that the loss occurred whilst the correspondence was in the custody of the British Postal administration in China, that it was not caused by any fault on the part of the sender, by destruction by fire, or shipwreck, nor by the dishonesty or negligence of any person not in the employment of the Hongkong Post Office.

5. No compensation can be paid for merely damage to fragile articles such as portraits, watches, handsomely bound books, &c., which reach their destination, although in a broken or deteriorated condition.

Money Order Regulations.

1.—Money Orders are exchanged with the United Kingdom, New South Wales, Queensland, South Australia and Port Darwin, the Straits Settlements, Western Australia, and (except at Shanghai) with the Japanese Empire. Hongkong also issues orders on Shanghai, and *vice versa*.

2.—Small sums may be remitted between the other Ports by means of Postage Stamps, subject to a charge of one per cent. for cashing them.

3.—Many Money Orders are supplied to residents at the smaller Ports in this way. An application for an order* is filled up, and is enclosed with a stamped, directed, and unsealed envelope to the Postmaster at the nearest issuing office. The application must be accompanied with the full amount (including commission) in cheque, postage stamps, or other equivalent of cash, and a little margin should be left for variations of exchange. The Postmaster issues the order, sends it on in the envelope, and returns the change, if any, by first opportunity, with a receipt for the letter, if it were to be registered, as it always should be. Care should be taken to send these applications in *time*, as the Money Order Offices close some hours before the departures of the mails.

4.—No order must exceed £10, or $50, or include any fraction of a penny, nor will more than two such orders be issued to the same person, in favour of the same payee, by the same mail. Orders will be drawn at the current rate of the day† and paid at the rate of the day when the advice arrived.

The commission is as follows:—

Orders on the United Kingdom.

Up to £2.....	18 cents.
" £5.....	36 "
" £7.....	54 "
" £10.....	72 "

Local and Intercolonial Orders.

Up to $25 or £5.....	25 cents.
" $50 or £10....	50 "

5.—Lists of Money Order Offices in the United Kingdom may be consulted at Hongkong and Shanghai.

6.—Names must be given in full (except when there is more than one Christian name) but the name of the Payee need not be given if the order be crossed (as cheques are crossed). It can then be paid only through a Bank, and may afterwards be specially crossed to any Bank.

7.—No order can be paid till the Payee has signed it in the proper place. An order can be transferred to another office on payment of an additional commission. In case of loss of an order, necessity for stopping payment, or the like, application should be made to the nearest Money Order Office for instructions.

8.—If the order be not presented within six months an additional commission will be charged; if not within twelve months, the money will be forfeited. When the order is once paid no further claim can be entertained.

9.—No order can be paid until the advice relative to it has been received.

* Made out on a printed form which is supplied gratis.
† A dollar rate for drawing on the United Kingdom is in force at Shanghai.

Merchant Vessels in Hongkong Harbour.

Exclusive of late Arrivals and Departures reported to-day.

To facilitate finding the position of any vessel in the Harbour, the Anchorage is divided into eight Sections, commencing at Green Island. Vessels near the Hongkong shore are marked *h.*, near the Kowloong shore *k.*, and those in the body of the Shipping or midway between each shore are marked *c.*, in conjunction with the figures denoting the sections.

Section.
1. From Green Island to the Gas Works.
2. From Gas Works to the Novelty Iron Works.
3. From Novelty Iron Works to the Harbour Master's Office.
4. From Harbour Master's to the P. and O. Co.'s Office.
5. From P. and O. Co.'s Office to Pedder's Wharf.
6. From Pedder's Wharf to the Naval Yard.
7. From Naval Yard to the Pier.
8. From Pier to East Point.
